

On-going VortexHealing® classes

A Perspective On-going VortexHealing classes:

In the Basic/ Foundational training, the aspect of Divinity, we know of as Merlin, bridges through the core of your energy system and heart to manifest Healing and Magical transformation. The focus at this point is on personal healing and your spiritual evolution, to awaken to your True nature. Merlin is non-dual, and so while on the one hand we refer to him as a Divine Being, it is not separate from what you Truly are, and as such, you are working with something which is already awake to what you are, and is actively bridging you to this realization.

The Foundational class, progresses into the Magical –Structures training. In this workshop, Merlin deepens your energy system in a way that allows Divinity to manifest more deeply for healing. And this allows Merlin to manifest a deeper aspect of Diving Magic for creating Magical Structures. These allow for a greater depth of healing, as well as broadening what you can do energetically. It also enables you to access Merlin's Global Healing Grid, an amazing Divine manifestation, which gives the focus of Divine power, which is needed to work on group consciousness and the world.

The next class, in terms of ongoing deepening, is the Karmic Intensive. In this workshop, you deepen into the availability of Divine Energy within the web of life, and using that, we can compress more Divine light into the incarnational body/ Karmic body in the spine. At this point you get down to the last karma knot and release it, which signifies a major transition on the journey of awakening. This workshop is sometimes re-focused as an Earth-Shift Intensive. In this workshop we are working together as one Divinity, to bring a focus of healing to the earth as a whole, or to some aspect of healing human global consciousness. These events have been happening since 1996. By being a facilitator for these events, we ourselves receive healing.

With the last karma know gone, there is a deeper energetic evolution, which can happen. And the Multi-Frequency and Merlin's Jewel workshop is the next step in this. Merlin has manifested a unique Divine Energy, which contains all the frequencies of creation. This speeds up the process of releasing conditioning from the energetic bodies and chakras. As our energy system deepens, Merlin bridges through your system to manifest Divine Magic in a deeper way, and this is Merlin's Jewel. It is a deeper focus of Divine Magic within the heart. All of this deepening allows you to access new levels of conditioning in the human energy system, and so we start some new 'Vortex Projects' such as to release the conditioning of 'Karmic Webbing' and 'Personality Ego positions'.

From here the next deepening class is called LifeForm. In this workshop Merlin bridges in the consciousness of Perfect Life. Life as it would be in its self-realized state, free of conditioning. This becomes a new healing tool, and approach to healing. It allows you to reach deeper through the energetic bodies into deeper conditioning, where you experiences life from the point of view of being a separate being. Students usually report that from this workshop their relationship to life and healing undergoes a deep shift in perspective.

And then there is the OMEGA and Karmic body workshop. This was originally a twelve-day workshop, with an additional four-day workshop, which was done afterwards, to access and clear all seven layers of the karmic body. Today it is just a seven-day workshop, which reflects the reality that for those interested in awakening, and healing, that the energetics of the world are supporting that more and more, allowing Merlin to work deeper and quicker.

In the Basic/Foundational workshop material, there is a document called the 14-consciousness/Energetic movements towards awakening. Number 1 is where you realize your sense of self is more than just the physical body. Number 2, you realize you are more than just your emotional reactions. Number 3, you realize you are the awareness behind the thoughts, like the sky is the space behind the clouds. This shift happens for everyone in the Basic training. Number 4 is where you awaken through your last karma knot. This shift happens usually in the Intensive class for everyone, but through all classes, individuals also move at their own rate. And then from there, through the workshop, you are moving through 5 and onto 14. In Omega, everyone reaches this 14th, which we call a window of awakening within the heart. This window is partially why we can manifest Omega as an expression of Divine heart, energy, and healing consciousness. An Omega healing is much deeper, and quicker. And we can start to work on yet deeper levels of the conditioned energy system, such as the pre-karmic consciousness, and the 5th dimensional level of the energy system (The Human energy system exists across 10 dimensions of manifestation). At the end of this workshop, students can appreciate more directly the Oneness of Existence, and manifesting healing through the Oneness, as Omega. Also, you are now ready for basic awakening. Through all the workshops we are engaged in a deep inner process of healing and ripening towards awakening.

After Omega, you can now take the Core Veil Basic awakening and awakening to being awareness workshop. This was original many individual workshops, which over time, were combined into this seven-day workshop. Ric's book, awakening through the Veils, gives all the details on how Merlin facilitates awakening. Through the practice of VortexHealing, Merlin revealed an understanding of how the experience of being a separate Being is manifested and maintained through what we call the Veils, and how awake Divine Grace releases these veils. There is one Divinity manifesting itself as this one Life. There is no separation except the experience of separation. Part of awakening is the realization, that What I AM, is not the same as how I AM experiencing what I AM. The latter is called separation and Identity, and through healing, we are addressing this Identity, and through awakening we realize we are not the object of the healing we thought we were.

Along the way, you will see on the flowchart of classes, other workshops which are in addition to this main flow of workshops. Such as Genetics, Clearing the Kundalini, Earth-Works, Breaking Timelines, Deepening in Meditation, Sensing etc...

Also, there is much more detail about the workshops you can read on the website.

It goes without saying, that all through the workshops we are facilitating Physical healing, by clearing and strengthening the energy bodies, and body pathways, and releasing the influence and weight of conditioning on the system, and enlivening within the body it's own healing intelligence.
